

Emily Tseng

Cornell Tech
2 West Loop Road
New York, NY 10044
Web: emtseng.me
Email: et397@cornell.edu

Research Interests

I design and build computational tools to enable new systems of caregiving, with a focus on augmenting the capabilities of frontline caregivers. Using methods from *human-computer interaction*, *machine learning* and *computer security and privacy*, I design, build, deploy and evaluate novel computing systems in real-world contexts, with the goal of widening access to care for marginalized people.

Education

- 2019 - present *Ph.D. student, Information Science, Cornell University*
Advised by Deborah Estrin and Nicola Dell.
- 2017 - 2019 *M.S. Information Systems, Health Tech specialization, Cornell Tech* GPA: 3.9/4.0
Relevant coursework: Applied Machine Learning, Deep Learning, Natural Language Processing, Human-Computer Interaction, Interactive Device Design.
Advised by Deborah Estrin and Nicola Dell.
- 2010 - 2014 *B.A. Ecology & Evolutionary Biology, Princeton University* GPA: 3.5/4.0
Concentration in Global Health and Health Policy. Studied epidemiology, journalism and social policy with a focus on predictive modeling of infectious disease epidemics.
Advised by Bryan Grenfell and Tiffany Bogich.

Awards & Honors

- 2020 Best Paper Award, ACM CSCW
- 2020 Distinguished Paper Award, USENIX Security Symposium
- 2020 Facebook/USENIX Internet Defense Prize, Third Place
- 2020 CRA-WP Grad Cohort for Women
- 2019 Best Paper Honorable Mention, ACM CSCW
- 2019 Advocate of New York City Award
Recognition from the Mayor's Office to End Domestic & Gender-Based Violence.
- 2019 Cornell University Information Science Department Fellowship
One-year doctoral fellowship awarded for exceptional preparation & promise (top 1.5% of applicants).
- 2017 Cornell Tech Merit Scholarship
Two-year merit award for Master's-level study.
- 2014 Senior Thesis Award - Modeling, Princeton University Department of Ecology & Evolutionary Biology
Recognition for that year's top senior thesis with a primary focus on mathematical modeling.
- 2014 Society of Sigma Xi (scientific research honor society), Princeton University

Publications

1. **Tseng, E.**, Freed, D., Engel, K., Ristenpart, T., and Dell, N. *A Digital Safety Dilemma: Analysis of Computer-Mediated Computer Security Interventions for Intimate Partner Violence During COVID-19*. ACM Conference on Human Factors in Computing Systems (CHI 2021, to appear). [preprint](#).
2. Bellini, R., **Tseng, E.**, McDonald, N., Greenstadt, R., McCoy, D., Ristenpart, T. and Dell, N. *"So-called privacy breeds evil": Narrative Justifications for Intimate Partner Surveillance in Online Forums*. Proceedings of the ACM on Human-Computer Interaction, Issue CSCW. 2020. [pdf](#).
Best Paper Award.

Current Research

Understanding working alliance in online psychotherapy

PIs: Tanzeem Choudhury, Ph.D., Cristian Danescu-Niculescu-Mizil, Ph.D., Deborah Estrin, Ph.D. (Cornell Tech)

- Investigating the use of generative modeling techniques to understand how working alliance manifests, develops, and dissipates on a widely used platform for text-based psychotherapy.

Understanding online abuser communities in intimate partner surveillance (IPS)

PIs: Nicola Dell, Ph.D. and Thomas Ristenpart, Ph.D. (Cornell Tech)

- Built a web scraping pipeline collecting data from public forums where abusers discuss IPS tactics.
- Analyzed how these forums manifest specific tactics and narrative justifications for abuse [1,2].

Clinical computer security for victims and survivors of IPV

PIs: Nicola Dell, Ph.D. and Thomas Ristenpart, Ph.D. (Cornell Tech)

- Conducting a field study of a “tech clinic” intervention for victims of IPV in New York City, in partnership with the Mayor’s Office to End Domestic and Gender-Based Violence. [6]

Community-engaged technology design to support home health aides caring for adults with heart failure

PIs: Nicola Dell, Ph.D. (Cornell Tech), Madeline Sterling, M.D. M.P.H. (Weill Cornell Medicine)

- Performed qualitative analysis of interviews with 50+ aides, nurses, physicians, social workers and agency leaders to understand the technology ecosystem around the home care of heart failure [5,7].
- Synthesized results into a functional prototype used in a participatory design study with aides, nurses, and other stakeholders to elicit how aides might use technology to achieve equity goals [4].
- Interviewed 20+ aides working in New York City during pandemic lockdowns in spring 2020 to understand how COVID-19 has affected their experiences [3].

Past Research

Extracting family history from unstructured clinical notes

- Developed a statistical model (LSTM-CRF) extracting family history information from unstructured text in patient information questionnaires.
- Awarded student travel grant to present at the OHNLP/BioCreativ workshop at ACM-BCB 2018.

Evaluating the usability of a personal data filtering interface

PI: Deborah Estrin, Ph.D. (Cornell Tech)

- Conducted a Mechanical Turk experiment evaluating the usability of an interface for filtering sensitive data from a user’s Google Takeout export.

Prototyping a tool for real-time smartphone-based mood tracking

PI: JP Pollak, Ph.D. (Cornell Tech)

- Prototyped and tested an intensive computing tool for logging emotional states in real time.
- Used interviews and observational studies to examine its usability and utility in managing generalized and subthreshold anxiety.

Modeling the dynamics of enterovirus-71 in Taiwan: An application of the TSIR model

PI: Bryan Grenfell, Ph.D. (Princeton University)

- Developed a time-series model of the impact of vaccination on EV-71 infection rates in Taiwan.
- Awarded departmental prize for excellence in mathematical modeling [poster].

Teaching

Cornell Tech, New York, NY

Teaching Assistant, INFO 6410 / CS 5682: HCI & Design, Professor Nicola Dell Fall 2019, 2020
Teaching Assistant, INFO 6940: Technology & Social Justice, Professor Nicola Dell Spring 2020
Research Internship Supervisor, Technion + Cornell Tech Intern Program Fall 2019
Grader, CS 5740: Natural Language Processing, Professor Yoav Artzi Spring 2019
Lead Teaching Assistant, Product Studio, Professor Deborah Estrin Fall 2018

Weill Cornell Medical College, New York, NY

Guest Lecturer, HCPL 8101: Digital Health, Professor Deborah Estrin Summer 2020
Introduction to Human-Centered Design
Tech for Caregivers: Changing care by centering home health aides in technology [[slides](#)]

Fullstack Academy, New York, NY

Software Engineering Teaching Fellow Summer 2017
- Taught and mentored 80+ students at a selective software engineering bootcamp.
- Delivered 10-minute talk on inclusive design and web accessibility: <https://youtu.be/NQP8yg81KZ8>

Talks

The Tools and Tactics of Intimate Partner Surveillance 2020
- MIT CSAIL Security Seminar
- Facebook Research
- 29th USENIX Security Symposium

Technology in Frontline Caregiving 2020
- Precision Behavioral Health Initiative, Cornell Tech
- Weill Cornell Medical College
- CHI '20 (canceled due to COVID-19)

Experiences of Home Health Aides in New York City during COVID-19 2020
- United Hospital Fund/Greater New York Hospital Association Annual Symposium

Relevant Industry Experience

Pfizer, Inc., New York, NY

Summer Associate Summer 2018
- Led a team of UX researchers and technologists to synthesize user stories, product requirements and storyboards for a care navigation product addressing health disparities within the Welsh NHS.
- Interviewed domain experts on the feasibility of a consumer voice product for patient support.

Biomeme, Inc., Philadelphia, PA

Product & Business Development Associate 2014 - 2016
- Developed an at-home sexual health diagnostic for a national reproductive healthcare provider.
- Developed a point-of-care influenza diagnostic with a federal disease control agency, resulting in a pilot program in a clinic network in Nairobi, Kenya.
- Conducted UX studies to guide development of a consumer-facing tool for personal DNA analysis.

Oxford University Clinical Research Unit (OUCRU), Ho Chi Minh City, Vietnam

Research Intern

Summer 2013

- Conducted literature reviews, performed data analyses (R) and mapped patient enrollment (GIS, Illustrator) for ongoing clinical studies at a tertiary tuberculosis hospital.
- Funded by the Center for Health & Wellbeing at Princeton University, through the Gates Foundation's Global Health Grand Challenge.

Doctors Without Borders / Medecins Sans Frontieres (MSF), New York, NY

Editorial & Multimedia Intern

Summer 2011, 2012

- Produced audio, video & web features on MSF field staff at humanitarian aid sites worldwide.

The Daily Princetonian, Princeton, NJ

Managing Editor

2013 - 2014

- Led 100+ staff of a collegiate news organization publishing in print 5x/week and online 24/7.
- Built web and data journalism departments, and expanded the paper's multimedia capabilities.

Additional Leadership and Service

PhDs At Cornell Tech (PACT), 2020 Co-President

Elected to co-lead the PhD students' association at Cornell Tech. Sets agenda for student initiatives, organizes and presides over PACT meetings, and represents Cornell Tech PhD student interests to the school administration and broader University assemblies.

Information Science Graduate Students' Association (ISGSA), 2020-21 Cornell Tech Liaison

Represents the interests of Cornell Tech-based students to the broader Information Science community.

HealthTech.NYC, 2018-19 Co-Organizer

Curated a speaker series for engineers, designers, and clinicians in the NYC health tech ecosystem.

Venture for America, 2014 Fellow

Elected to the 2016-17 Alumni Board to support programs widening access to entrepreneurship.

Skills

- **Human-Centered Design** | Interviewing, contextual enquiry, survey design, thematic analysis, prototyping (Sketch, Photoshop, Illustrator, InDesign, InVision)
- **Data Science** | Quantitative analysis and statistical modeling (Python, R, MATLAB), modern machine learning (scikit-learn, Dynet, Tensorflow, Pytorch)
- **Software Development** | Full-stack software engineering (JavaScript, Node.JS, React, HTML, CSS/Sass), Agile development, cloud deployment tools (AWS, Heroku)
- **Communication** | Writing, editing, public speaking, multimedia production (audio and video)
- **Research** | Literature review, study protocol design, IRB submission, paper-writing
