

Emily Tseng

Cornell Tech
2 West Loop Road
New York, NY 10044
Web: emtseng.me
Email: et397@cornell.edu

Research Interests

I study how computing systems for care work can be built to emphasize agency, privacy, and equity for patients and providers alike. Drawing on approaches from human-computer interaction, computer security and privacy, and machine learning, I design, build, deploy and evaluate systems that aim to widen access to healthcare and improve wellbeing for marginalized people.

Education

- 2019 - present *Ph.D. student, Information Science, Cornell University*
Advised by Deborah Estrin and Nicola Dell.
- 2017 - 2019 *M.S. Information Systems, Health Tech specialization, Cornell Tech* GPA: 3.9/4.0
Relevant coursework: Applied Machine Learning, Deep Learning, Natural Language Processing, Human-Computer Interaction, Interactive Device Design.
Advised by Deborah Estrin and Nicola Dell.
- 2010 - 2014 *B.A. Ecology & Evolutionary Biology, Princeton University* GPA: 3.5/4.0
Concentration in Global Health and Health Policy. Studied epidemiology, journalism and social policy with a focus on predictive modeling of infectious disease epidemics.
Advised by Bryan Grenfell and Tiffany Bogich.

Publications

1. Bellini, R., **Tseng, E.**, McDonald, N., Greenstadt, R., McCoy, D., Ristenpart, T. and Dell, N. "So-called privacy breeds evil": Narrative Justifications for Intimate Partner Surveillance in Online Forums. Proceedings of the ACM on Human-Computer Interaction, Issue CSCW. 2020. (Accepted).
2. **Tseng, E.**, Bellini, R., McDonald, N., Danos, M., Greenstadt, R., McCoy, D., Dell, N. and Ristenpart, T. 2020. *The Tools and Tactics Used in Intimate Partner Surveillance: An Analysis of Online Infidelity Forums*. 29th USENIX Security Symposium. [pdf](#). [online](#).
Distinguished Paper Award.
Internet Defense Prize, third prize.
3. Sterling, MR, **Tseng, E.**, Poon, A, Cho, J, Avgar, AC, Kern, LM, Ankuda, CK, Dell, N. *Experiences of Home Health Care Workers in New York City During the Coronavirus Disease 2019 Pandemic: A Qualitative Analysis*. JAMA Internal Medicine. Published online August 04, 2020. [pdf](#). [Online](#).
4. **Tseng, E.**, Okeke, F., Sterling, M., and Dell, N. "We can learn. Why not?": Designing Technologies to Engender Equity for Home Health Aides. ACM Conference on Human Factors in Computing Systems (CHI 2020). [pdf](#). [online](#).

5. Sterling, M. R., Dell, N., Piantella, B., Cho, J., Kaur, H., **Tseng, E.**, Okeke, F., Brown, M., Leung, P. B. K., Silva, A. F. , Shaw, A. L., Kern, L. M. 2020. *Understanding the Workflow of Home Healthcare for Patients with Heart Failure: Challenges and Opportunities*. Journal of General Internal Medicine. [pdf](#). [online](#).

Awards & Honors

- | | |
|------|--|
| 2020 | Distinguished Paper Award, USENIX Security Symposium |
| 2020 | Facebook/USENIX Internet Defense Prize, Third Place |
| 2020 | CRA-WP Grad Cohort for Women |
| 2019 | Best Paper Honorable Mention, ACM CSCW |
| 2019 | Advocate of New York City Award
<i>Recognition from the Mayor's Office to End Domestic & Gender-Based Violence.</i> |
| 2019 | Cornell University Information Science Department Fellowship
<i>One-year doctoral fellowship awarded for exceptional preparation & promise (top 1.5% of applicants).</i> |
| 2017 | Cornell Tech Merit Scholarship
<i>Two-year merit award for Master's-level study.</i> |
| 2014 | Senior Thesis Award - Modeling, Princeton University Department of Ecology & Evolutionary Biology
<i>Recognition for that year's top senior thesis with a primary focus on mathematical modeling.</i> |
| 2014 | Society of Sigma Xi (scientific research honor society), Princeton University |
| 2010 | Valedictorian, Harpeth Hall School |

Current Research

Understanding patient-therapist rapport in online psychotherapy

PIs: Tanzeem Choudhury, Ph.D. (Cornell Tech) and Cristian Danescu-Niculescu-Mizil, Ph.D. (Cornell University)

- Investigating the use of generative modeling techniques in NLP to understand rapport between patients and therapists on a widely used platform for text-based psychotherapy.

Understanding online abuser communities in intimate partner surveillance (IPS)

PIs: Nicola Dell, Ph.D. and Thomas Ristenpart, Ph.D. (Cornell Tech)

- Built a web scraping pipeline collecting data from public forums where abusers discuss IPS tactics.

- Co-authored paper analyzing the specific tactics recommended within these fora, as well as their social dynamics [3].
- Co-authored paper analyzing the narrative justifications for abuse employed by forum-goers [2].

Clinical computer security for victims and survivors of IPV

PIs: Nicola Dell, Ph.D. and Thomas Ristenpart, Ph.D. (Cornell Tech)

- Conducting a field study of a “tech clinic” intervention for victims of IPV in New York City, in partnership with the Mayor’s Office to End Domestic and Gender-Based Violence. [1,7]

Community-engaged technology design to support home health aides caring for adults with heart failure

PIs: Nicola Dell, Ph.D. (Cornell Tech), Madeline Sterling, M.D. M.P.H. (Weill Cornell Medicine)

- Performed qualitative analysis of interviews with 50+ aides, nurses, physicians, social workers and agency leaders to understand the technology ecosystem around the home care of heart failure [6,8].
- Synthesized resulting themes into a functional prototype of a tablet-based tool for communication, data collection and decision support for HHAs in the field. Used the prototype in a participatory design study with HHAs, nurses, and other stakeholders to elicit ideas on how aides might be better empowered within home care work [5].
- Interviewed 20+ aides working in New York City during COVID-19 to elucidate how the pandemic affected their experiences [4].

Past Research

Extracting family history from unstructured clinical notes

- Developed a combined rule-based and statistical model (LSTM-CRF) extracting family history information from unstructured text in patient information questionnaires.
- Awarded student travel grant to present at the OHNLP/BioCreativ workshop at ACM-BCB 2018.

Evaluating the usability of a personal data filtering interface

PI: Deborah Estrin, Ph.D. (Cornell Tech)

- Conducted an Amazon Mechanical Turk experiment evaluating the usability of an interface for filtering sensitive data from a user’s Google Takeout export.

Prototyping a tool for real-time smartphone-based mood tracking

PI: JP Pollak, Ph.D. (Cornell Tech)

- Prototyped and tested an intensive computing tool for logging emotional states in real time.
- Performed observational studies and semi-structured interviews to investigate the usability and utility of the tool for managing subthreshold and generalized anxiety.

Modeling the dynamics of enterovirus-71 in Taiwan: An application of the TSIR model

PI: Bryan Grenfell, Ph.D. (Princeton University)

- Developed a time-series model predicting the impact of vaccination on enterovirus infection rates in Taiwan based on data from the Taiwanese CDC. [[poster](#)]
- Awarded departmental prize for excellence in mathematical modeling.

Teaching and Mentoring

Cornell Tech, New York, NY

Research Internship Supervisor, Cornell Tech Summer Intern Program	Summer 2020
Teaching Assistant, INFO 6940: Technology & Social Justice, Professor Nicola Dell	Spring 2020
Teaching Assistant, INFO 6410 / CS 5682: HCI & Design, Professor Nicola Dell	Fall 2019
Research Internship Supervisor, Technion + Cornell Tech Intern Program	Fall 2019
Grader, CS 5740: Natural Language Processing, Professor Yoav Artzi	Spring 2019
Lead Teaching Assistant, Product Studio, Professor Deborah Estrin	Fall 2018

Weill Cornell Medical College, New York, NY

Guest Lecturer, HCPL 8101: Digital Health, Professor Deborah Estrin	Summer 2020
Introduction to Human-Centered Design	
Tech for Caregivers: Changing care by centering home health aides in technology [slides]	

Fullstack Academy, New York, NY

Software Engineering Teaching Fellow	Summer 2017
<ul style="list-style-type: none">- Taught and mentored 80+ students at a selective software engineering bootcamp.- Delivered 10-minute talk on inclusive design and web accessibility: https://youtu.be/NQP8yg81KZ8	

Talks

Technology in Frontline Caregiving - Precision Behavioral Health Initiative, Cornell Tech	2020
The Tools and Tactics of Intimate Partner Surveillance - 29th USENIX Security Symposium	2020
Technology to Engender Equity for Home Health Aides - CHI '20 (canceled due to COVID-19)	2020

Relevant Work Experience

Freelance Software Designer & Developer, New York, NY 2017 - present

- Designed and developed a recipe management tool for the Thomas Keller Restaurant Group.
- Developed a Chrome extension providing online news readers with articles from contrasting political viewpoints for civic media startup Bridge the Media.

Pfizer, Inc., New York, NY

Summer Associate Summer 2018

- Led a team of UX researchers and technologists to synthesize user stories, product requirements and storyboards for a care navigation product addressing health disparities within the Welsh NHS.
- Interviewed domain experts on the feasibility of a consumer voice product for patient support.

Biomeme, Inc., Philadelphia, PA

Product & Business Development Associate 2014 - 2016

- Developed an at-home sexual health diagnostic for a national reproductive healthcare provider.
- Developed a point-of-care influenza diagnostic with a federal disease control agency, resulting in a pilot program in a clinic network in Nairobi, Kenya.
- Conducted UX studies to guide development of a consumer-facing tool for personal DNA analysis.

Oxford University Clinical Research Unit (OUCRU), Ho Chi Minh City, Vietnam

Research Intern

Summer 2013

- Conducted literature reviews, performed data analyses (R) and mapped patient enrollment (GIS, Illustrator) for ongoing clinical studies at a tertiary tuberculosis hospital.
- Funded by the Center for Health & Wellbeing at Princeton University.

Doctors Without Borders / Medecins Sans Frontieres (MSF), New York, NY

Editorial & Multimedia Intern

Summer 2011, 2012

- Produced audio, video & web features on MSF field staff at humanitarian aid sites worldwide.

The Daily Princetonian, Princeton, NJ

Managing Editor

2013 - 2014

- Led 100+ staff of a collegiate news organization publishing in print 5x/week and online 24/7.
- Built web and data journalism departments, and expanded the paper's multimedia capabilities.

Additional Leadership and Service

PhDs At Cornell Tech (PACT), 2020 *Co-President*

Elected to co-lead the PhD students' association at Cornell Tech. Sets agenda for student initiatives, organizes and presides over PACT meetings, and represents Cornell Tech PhD student interests to the school administration and broader University assemblies.

Information Science Graduate Students' Association (ISGSA), 2020-21 *Cornell Tech Liaison*

Represents the interests of Cornell Tech-based students to the broader Information Science community.

HealthTech.NYC, 2018-19 *Co-Organizer*

Curated a speaker series for engineers, designers, and clinicians in the NYC health tech ecosystem.

Venture for America, 2014 *Fellow*

Elected to the 2016-17 Alumni Board to support programs widening access to entrepreneurship.

Skills

- **Human-Centered Design** | Interviewing, contextual enquiry, survey design, thematic analysis, prototyping (Sketch, Photoshop, Illustrator, InDesign, InVision)
- **Data Science** | Quantitative analysis and statistical modeling (Python, R, MATLAB), modern machine learning (scikit-learn, Dynet, Tensorflow, Pytorch)
- **Software Development** | Full-stack software engineering (JavaScript, Node.JS, React, HTML, CSS/Sass), Agile development, cloud deployment tools (AWS, Heroku)
- **Communication** | Writing, editing, public speaking, multimedia production (audio and video)
- **Research** | Literature review, study protocol design, IRB submission, paper-writing
